

Humana risk adjustment and Stars 2022 monthly learning series

The Humana risk adjustment and Stars provider education teams are pleased to offer the following live, online learning sessions in 2022. Some presentations offer free continuing education credit opportunities: *CME for licensed clinicians and/or CEU for certified coders.* *

Along with the topic-specific webinars, we will be hosting two additional presentations. The first is on the topic of the Patient Experience Surveys. These sessions will dive into how Patient Experience is measured by the Centers for Medicare & Medicaid Services (CMS) through the CAHPS and HOS surveys, the purpose of the Humana Patient Experience Survey, as well as resources and practical ways to enhance the overall patient experience.

The second presentation will be “The Importance of Accurate Documentation and Coding: A Physician’s Perspective”. These sessions will focus on understanding of the healthcare components related to risk adjustment and how to leverage accurate clinical documentation and coding to capture the true health status of the patient.

Here is the schedule:

Available CME and/or CEU opportunities are noted next to topics. All times are Hawaii Standard Time.

How to register:

Registration must take place prior to the event. You may register in one of two ways:

- While holding the control button, click “Register” next to the session in which you would like to participate and complete the registration process.

OR

- Copy the URL listed next to the session in which you would like to participate. Paste the URL into a browser, hit enter and complete the registration process.

The presentation is limited to one CME/CEU per registration, where applicable. After registering through the registration link, you will receive a confirmation email containing information about how to join the meeting. A link in the confirmation email allows you to add this meeting to your calendar.

If you have questions or need help with registration, email AskStars@humana.com for Stars and Patient Experience sessions or PRCE@humana.com for Risk Adjustment sessions.

*A minimum participation time of 75% of the total presentation is required to qualify for the CME/CEU. Participants must be connected to both the audio and visual parts of the meeting for attendance to be recorded. After attendance is verified, an American Academy of Professional Coders (AAPC) CEU or American Association of Family Physicians (AAFP) CME certificate will be emailed to the appropriate participants.
